

**REMARKS**

Entry of this Amendment, and reconsideration and allowance of this application, as amended, is respectfully requested.

This amendment is in response to the Office Action dated April 30, 2008. By the present Amendment, each of the independent claims has been amended to define that some of the bump electrodes overlap the semiconductor pellet in a plane view. By virtue of this feature, it is possible to minimize the size of the device. Further, this feature is not found in the cited Prior Art, whether considered alone or in combination with each other. Still further, this newly added claim feature serves to distinguish these claims over the claims of the related cases relied on in the double patenting rejection. Therefore, reconsideration and removal of both the Prior Art rejections and the double patenting rejection is respectfully requested.

If the Examiner believes that there are any other points which may be clarified or otherwise disposed of either by telephone discussion or by personal interview, the Examiner is invited to contact Applicants' undersigned attorney at the number indicated below.

Please charge any shortage in the fees due in connection with the filing of this paper to the Deposit Account of Antonelli, Terry, Stout & Kraus, LLP, Dep. Acct. No. 01-2135 (1374.34189R00), and please credit any excess fees to such deposit account.

Very truly yours,  
**Antonelli, Terry, Stout & Kraus, LLP**
